

Application No.: 10/553,576
Filing Date.: October 17, 2005

REMARKS

In response to the restriction requirement set forth in the communication, Applicant elects to prosecute Group XII, Claims 18-21 in part.

In response to the election of species requirement, Applicants elect SEQ ID NO: 22. Claims 18-21 read upon the elected species. This election is made with traverse with respect to Group XI. The traversal is set forth below.

Group XI are directed to the same invention, differing only in the probe. While Group XI relates to SEQ ID NO: 21, Group XII relates to SEQ ID NO: 22. Accordingly, there is unity of invention at least between Groups XI and XII. Furthermore, Applicant respectfully submits that it would not be overly burdensome for the Examiner to search both SEQ ID NO: 21 and SEQ ID NO: 22 as they relate to the claimed method.

No Disclaimers or Disavowals

Although the present communication may include alterations to the application or claims, or characterizations of claim scope or referenced art, the Applicants are not conceding in this application that previously pending claims are not patentable over the cited references. Rather, any alterations or characterizations are being made to facilitate expeditious prosecution of this application. The Applicants reserve the right to pursue at a later date any previously pending or other broader or narrower claims that capture any subject matter supported by the present disclosure, including subject matter found to be specifically disclaimed herein or by any prior prosecution. Accordingly, reviewers of this or any parent, child or related prosecution history shall not reasonably infer that the Applicants have made any disclaimers or disavowals of any subject matter supported by the present application.
